ASSOLUCE: PUSH ON EDUCATION AND EUROPEAN REPRESENTATION

From CELMA to LightingEurope, and from Italy to Europe: Assoluce is present in all the most important and prestigious venues nationally and internationally in the sector, assuring the protection of their interests for its members and constantly refreshed information concerning legislation and regulations, sending the information to all the companies.

Assoluce has always been in the front line when it comes to assuring **high-quality support** for the member companies; the **evolution** under way in the lighting sector, as regards **legislation** and **regulations**, is so fast that the technical managers in a company require **constant updating** to ensure that the new requisites are adopted, both in the design of new products and in modifying those already in production.

For this reason, Assoluce is constantly involved in **free technical training** for its members, with a **dedicated, specific programme** for businesses involving meeting at least **once a month**, and with experts dedicated exclusively to the lighting sector.

Moreover, the creation of **Lighting Europe**, a European association comprising all the national associations and producers of lighting systems and of light bulbs was formalised on 5th December 2012. This aims to be the spokesman for the lighting industry in Europe, representing over a workforce of over 100,000 people and a turnover of **20 billion euro**. Within this institution, **Assoluce** participates in six working groups, where it contributes to the **definition of policy** and the discussion of standards and guidelines within the sector. Moreover, it helps in the drafting of proposals for new regulations or modifications, identifying the correct interpretation of specific requisites.

Assoluce is also present at all the most important **Italian venues** (CEI, INDICAM), as part of its constant commitment on all possible fronts.

In order to facilitate the **visibility** of the association and its member companies, this year **Assoluce** will again be present at **Euroluce** (strategically positioned between the West Gate and the South Gate, occupying halls 9-11 and 13-15), with its own stand in **hall 15/D23**, alongside the over **80 member companies** present as **exhibitors**.
