PROJECT “SIMPLE CUSTOM” AT SALONI 2013

A plan to provide assistance in the complex world of customs, in order to enable companies tackle the new challenges of foreign markets with equanimity

This year, FederlegnoArredo intends to support member companies exhibiting at the fair who require **consultancy in customs affairs**, with the support of its partner company **Easyfrontier**, a consultancy firm specialising in customs, which offers assistance to businesses operating abroad. Active since 2010, it provides help to member companies in all customs matters (which are greatly simplified and speeded up) at discounted rates.

In order to promote the simplification of customs procedures and make businesses more competitive, Federation has set up the “**Simple Customs Project**”: members are provided with valuable assistance on such delicate and complex issues as the origin of goods, long-term declarations required by clients, “made in...” labelling, the customs classification of products, embargoes, items that may not be exported and Authorised Economic Operator (AEO) certification, which makes it possible to reduce checks on merchandise to be reduced almost to nothing.

As part of the service to member companies, Easyfrontier’s experts will be available during the Saloni 2013 to anyone requesting their services, **from 10 to 12 April, 2.30 to 5 pm** at the fair’s Services Centre. For further information, click on: www.federlegno.it.
